

Ds_job Salaries

Let's see my project

WHAT IS THIS
PROJECT?

This project is about

That there is database with
data jobs data and my goal
is to get what are best data
jobs

Tools I have used

1: Visual studio code

2: Python language

3: jupyter notebook

4: pandas library

2: sql language

3: Matplotlib library

Analysis steps

1

Gathering Data

3

Cleaning Data

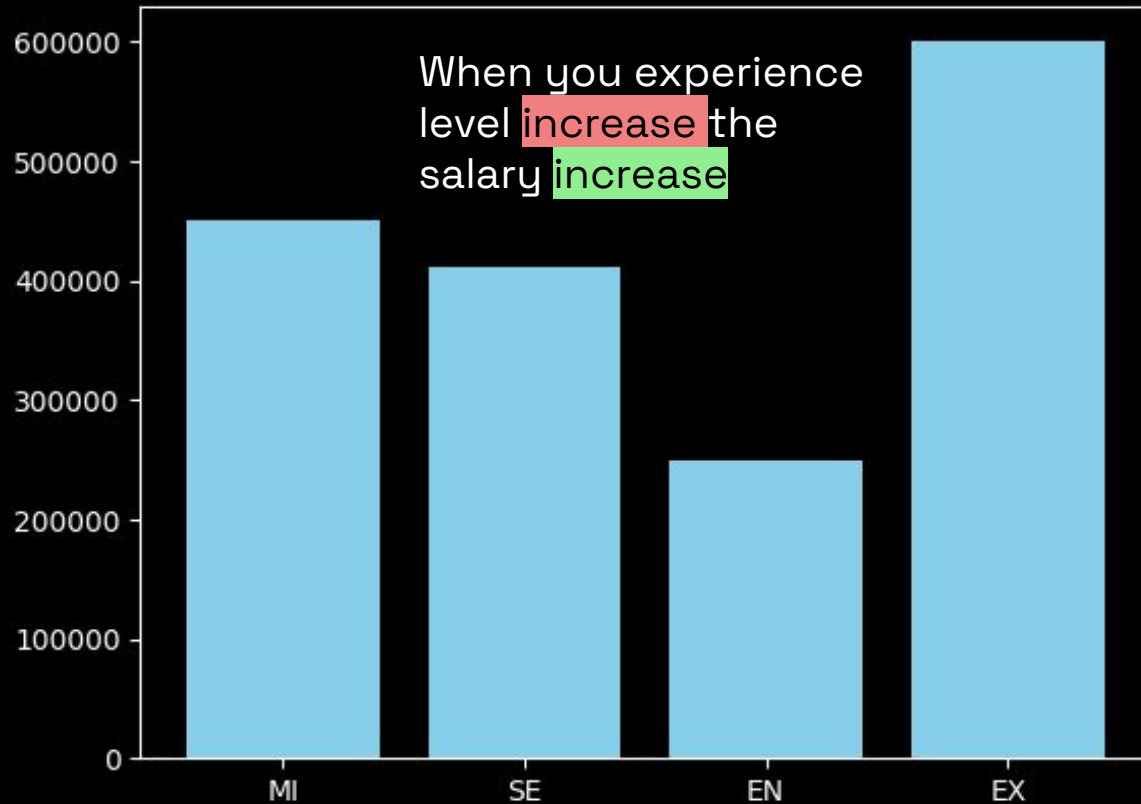

2

Investigating Data

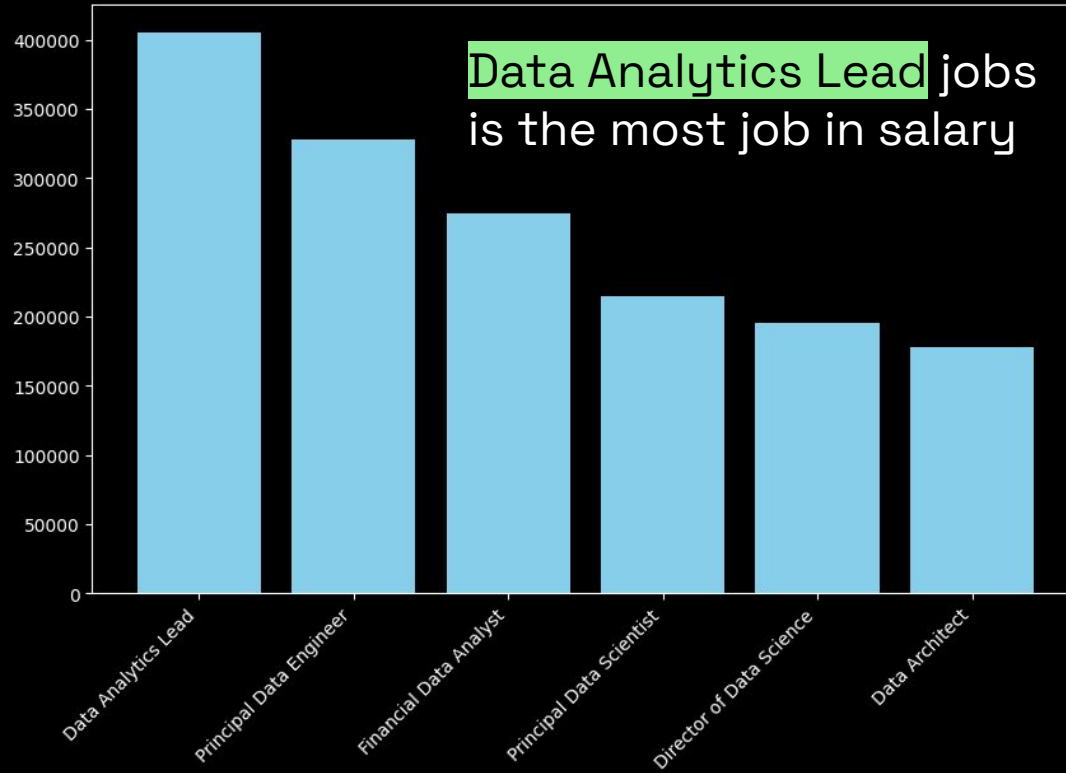

4

Visualizing Data

First insight:

Second insight:

conclusion:

- 1 I work hard to increase the experience level
- 2 choose a job from the top 10 jobs

Thanks for your time
